

OPEN ENROLLMENT AUGUST 28 & 29, 2020 OPEN WATER RESCUE OPERATIONS

This program is designed for emergency services personnel who belong to agencies whose jurisdictions encompass bodies of water that have little or no current (such as lakes, bays, or large rivers that are deep, wide and have very slow currents). This program is not intended for those who may find themselves working in a moving-water environment. The Basic Open Water Rescue course is for awareness level and operations training only. Topics covered include rescue philosophy and safety, team organization and scene management, basic moving-water hydrology and hazards, medical considerations, pre-planning, water rescue knots, reaching and throwing rescues, boat based operations, contact rescues and managing combative victims, basic search management and search patterns, victim assessment and stabilization, spinal injuries, SCUBA injuries, and much more!

Friday: 7:00 pm – 10:00 pm at 103 Kiel Ave, Kinnelon, NJ 07405
Saturday: 8:30 am – 4:30pm at Lake Rickabear*, Kinnelon, NJ 07405
